

PLAGIARISM

WHAT IS PLAGIARISM?

- Many people think of plagiarism as copying another's work or borrowing someone else's original ideas. But terms like "copying" and "borrowing" can disguise the seriousness of the offense:

ALL OF THE FOLLOWING ARE CONSIDERED PLAGIARISM:

- turning in someone else's work as your own
- copying words or ideas from someone else without giving credit
- failing to put a quotation in quotation marks
- giving incorrect information about the source of a quotation
- changing words but copying the sentence structure of a source without giving credit
- copying so many words or ideas from a source that it makes up the majority of your work, whether you give credit or not

ACCORDING TO THE MERRIAM-WEBSTER ONLINE DICTIONARY, TO "PLAGIARIZE" MEANS

-
- to steal and pass off (the ideas or words of another) as one's own
 - to use (another's production) without crediting the source
 - to commit literary theft
 - to present as new and original an idea or product derived from an existing source

In other words, plagiarism is an act of fraud. It involves both stealing someone else's work and lying about it afterward.

BUT CAN WORDS AND IDEAS REALLY BE STOLEN?

- According to U.S. law, the answer is yes. The expression of original ideas is considered **intellectual property** and is protected by copyright laws, just like original inventions.
- Almost all forms of expression fall under copyright protection as long as they are recorded in some way (such as a book or a computer file).

What is Intellectual Property

- Intellectual property (IP) refers to creations of the mind, such as inventions, literary and artistic works, designs, and symbols. These intangible assets are protected by law through various mechanisms.

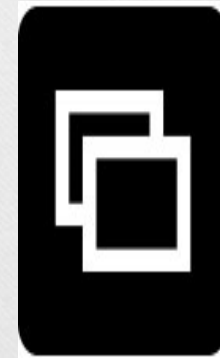

Types of intellectual property:

- **Patents:** A patent grants an exclusive right to an inventor for their invention. It allows the patent owner to control how the invention is used by others. In exchange for this right, technical information about the invention is made publicly available in the published patent document¹.
- **Copyright:** Copyright encompasses the rights that creators have over their literary and artistic works. This includes books, music, paintings, films, computer programs, and more. Copyright protection ensures that creators can benefit from their creations¹.
- **Trademarks:** A trademark is a sign that distinguishes the goods or services of one enterprise from those of others. Trademarks can be symbols, names, or images. They play a crucial role in branding and identifying products or services¹.

TYPES OF PLAGIARISM

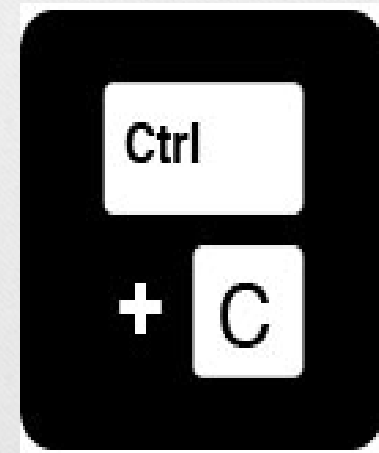

1. CLONE

- Submitting another's work, word-for-word, as one's own

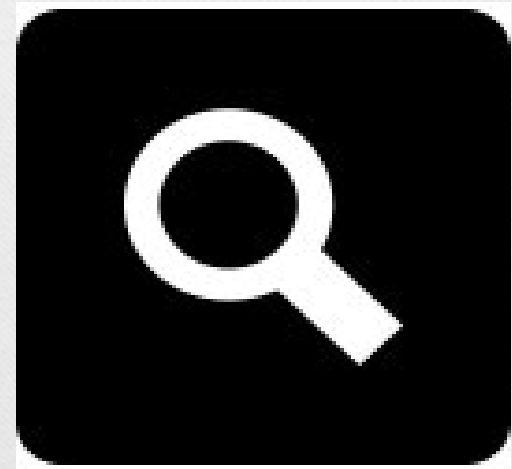

2. CTRL-C

- Contains significant portions of text from a single source without alterations

3. FIND – REPLACE

- Changing key words and phrases but retaining the essential content of the source

4. RECYCLE

- Borrows generously from the writer's previous work without citation

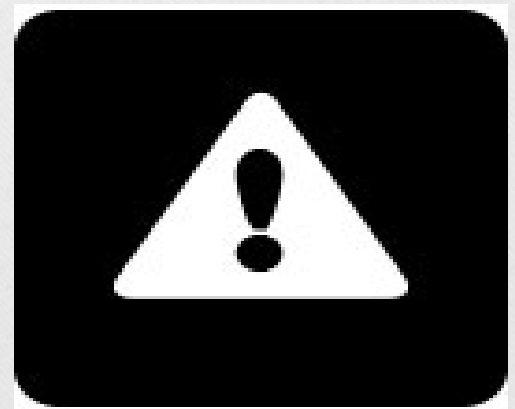

5. HYBRID

- Combines perfectly cited sources with copied passages without citation

6. 404 ERROR

- Includes citations to non-existent or inaccurate information about sources

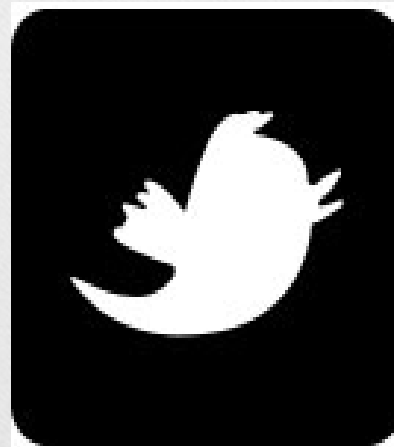

7. AGGREGATOR

- Includes proper citation to sources but the paper contains almost no original work

8. RE-TWEET

- Includes proper citation, but relies too closely on the text's original wording and/or structure

CHECK FOR PLAGIARISM

The screenshot displays the WriteCheck plagiarism checker interface. At the top, a green button labeled 'Buy Credits' is visible. The main content area shows a document titled 'Rarefied Air' with a similarity score of 59% and 32 matches. The document text includes: 'Rarefied Air', 'A History of Exploration and Adventure on Mount Everest', 'Since its first establishment as the highest peak in the world in the mid-nineteenth century, Mount Everest has occupied special place in the world of explorers and adventurers. The highest mountain in the world attracts many well-experienced mountaineers as well as novice climbers who are willing to pay substantial sums to professional to professional mountain guides to complete a successful climb.', and 'While Mount Everest holds a unique place in the human imagination, perceptions about the world's tallest mountain have evolved over time due to changing politics, globalization and environmental concerns as man has become more...'. The interface also features a sidebar with 'Info', 'Tips', 'Citation Tips', 'Style Guides for Citing Sources' (Modern Language Association, American Psychological Association, Chicago Style, Turabian Style, More), and 'Filter' (Exclude Quotes, Exclude Bibliography). A 'View Demo' button is present. Below the document, three service categories are listed: 'Plagiarism Checker By Turnitin®', 'Grammar Checking Using ETS® technology', and 'Professional Tutoring By Pearson Tutor Services'.
