

PROJECT DIARY
PLANNING A COMPUTING PROJECT

BCAS – SCHOOL OF COMPUTING
DEPARTMENT OF COMPUTING
BTEC HND PROGRAMME

Centre Ref. No:

PEARSON No:

Student Name: *MN. Sihanag.*

Supervisor's Name: *MRS. ALF. Sajeetha.*

Assessor Name: *MR. AR. Mohammed Nizzad.*

Batch No: *22 - CSD*

INSTRUCTIONS FOR MAINTAINING THE PROJECT PROGRESS LOG

1. As credit will be given for the maintenance of the Project progress log all you interim and final assessment you are advised to maintain it neat and tidy and to keep it safe till the end of you Project submission period.
2. It is important that entries should be made at the end of each day's work and weekly entries at the end of each working week. All entries should be in ink.
3. Daily entries should indicate as clearly as possible about various work performed by you on each day in your Project
4. The weekly entries should contain a brief description of the work done each week and about the issues analyze while meeting the Project supervisor
5. In the blank space provided write any new information you may have gathered any reference that may be necessary relevant notes from manufacturer's specifications, sketches, diagrams and technical drawings etc that will be useful to you. Give a brief description of the problems that you may have encountered, how they were overcome and steps taken to avoid their recurrence in the future
6. You are advised to make entries of any technical or managerial problems you may have encountered
7. You should obtain the signature of your Project supervisor each week on the day specified by him
8. The diary should be available for inspection whenever called for by Project coordinator or course coordinator.

Project Progress Weekly Sheet – Week 01

Week Start Date	09-09-2024
Week Ending Date	15-09-2024

DAY	ACTIVITY
Monday	Selected a title for the project.
Tuesday	
Wednesday	
Thursday	did research about selected title.
Friday	
Saturday	
Sunday	Filled out the project proposal form.

Details of Work Carried out, Problem encountered how it is solved and suggestions given by the supervisor (Sketches and diagrams should be given where ever it is applicable).

Major Tasks Completed: Selected the proper title.

Problems Occurred:

Had issues in selecting the suitable title..

Suggestions Made by the Supervisor:

?

Decisions Taken: ✓

Project Progress Weekly Sheet – Week 02

Week Start Date	16-09-2024
Week Ending Date	22-09-2024

DAY	ACTIVITY
Monday	Researched about extractive Summarization technique.
Tuesday	
Wednesday	
Thursday	
Friday	
Saturday	Researched about abstractive Summarization technique.
Sunday	choosed abstractive Summarization method.

Details of Work Carried out, Problem encountered how it is solved and suggestions given by the supervisor (Sketches and diagrams should be given where ever it is applicable).

Major Tasks Completed:

- Reviewed different summarization techniques.
- ✓ extractive method.
- ✓ abstractive " "
- ✓
- ✓

Problems Occurred:

While implementing the extractive method, I faced a problem of selecting the most relevant sentences from the document. I solved this by using a scoring system to rank the sentences based on their relevance to the main topic.

Suggestions Made by the Supervisor:

My supervisor suggested that I should also consider using a neural network approach for summarization, which could potentially provide better results than the traditional methods.

Decisions Taken:

I decided to implement the neural network approach as suggested by my supervisor, as it offered a more advanced and potentially more accurate method for summarization.

Project Progress Weekly Sheet – Week 03

Week Start Date	23-09
Week Ending Date	29-09

DAY	ACTIVITY
Monday	Submitted the project proposal form.
Tuesday	
Wednesday	
Thursday	
Friday	
Saturday	Prepared the project proposal presentation slide.
Sunday	

Details of Work Carried out, Problem encountered how it is solved and suggestions given by the supervisor (Sketches and diagrams should be given where ever it is applicable).

Major Tasks Completed:

project proposal form submission.

Problems Occurred:

issues in selecting libraries and slide preparation.

- ✓. to load dataset
- ✓. to train model.
- ✓. to use interface.

Suggestions Made by the Supervisor:

Decisions Taken:

Project Progress Weekly Sheet – Week 05

Week Start Date	30-09
Week Ending Date	06-10

DAY	ACTIVITY
Monday	Submitted project proposal presentation's slide.
Tuesday	
Wednesday	
Thursday	prepared for presenting the project proposal.
Friday	
Saturday	
Sunday	

Details of Work Carried out, Problem encountered how it is solved and suggestions given by the supervisor (Sketches and diagrams should be given where ever it is applicable).

Major Tasks Completed:

project proposal slide submission.

Project Progress Weekly Sheet – Week 06

Week Start Date	07-10
Week Ending Date	13-10

DAY	ACTIVITY
Monday	Successfully presented the project proposal.
Tuesday	
Wednesday	
Thursday	• project proposal got accepted by the lecturer. • uploaded the project proposal presentation video.
Friday	
Saturday	
Sunday	

Details of Work Carried out, Problem encountered how it is solved and suggestions given by the supervisor (Sketches and diagrams should be given where ever it is applicable).

Major Tasks Completed:

presented the project proposal.

Problems Occurred:

Suggestions Made by the Supervisor:

Project Progress Weekly Sheet – Week 07

Week Start Date	14-10
Week Ending Date	20-10

DAY	ACTIVITY
Monday	Reviewed different datasets.
Tuesday	
Wednesday	Collected Dataset "Rana" ^{"SAMSUM"}
Thursday	
Friday	
Saturday	
Sunday	

Details of Work Carried out, Problem encountered how it is solved and suggestions given by the supervisor (Sketches and diagrams should be given where ever it is applicable).

Major Tasks Completed:

Dataset collection (SAMSUM)

Problems Occurred:

Issues in finding the better dataset.

? kugle own/only mail dataset 300k+ samples.

? Samsum dataset.

? Exsum dataset.

Suggestions Made by the Supervisor:

Project Progress Weekly Sheet – Week 08

Week Start Date	21 - 10
Week Ending Date	27 - 10

DAY	ACTIVITY
Monday	
Tuesday	
Wednesday	Reviewed different pretrained models. :- BERT, PEGASUS, GPT, T5-Base, BART-Base.
Thursday	
Friday	Selected pegasus ^{T5-Base} model from hugging face.
Saturday	
Sunday	evaluated BART-Base and T5-Base and selected T5-Base due to the higher f1 score.

Details of Work Carried out, Problem encountered how it is solved and suggestions given by the supervisor (Sketches and diagrams should be given where ever it is applicable).

Major Tasks Completed:

Selected suitable pre-trained model.

• ~~PRE-TRAINED~~ from hugging face.

TS-Base

Problems Occurred:

Project Progress Weekly Sheet – Week 09

Week Start Date	28-10
Week Ending Date	03-11

DAY	ACTIVITY
Monday	
Tuesday	fine-tuning the model with custom dataset. with different parameters "SAMSUM"
Wednesday	
Thursday	
Friday	fine-tuning the model with custom dataset. with different parameters. "SAMSUM"
Saturday	
Sunday	

Details of Work Carried out, Problem encountered how it is solved and suggestions given by the supervisor (Sketches and diagrams should be given where ever it is applicable).

Major Tasks Completed:

Fine-tuned the model with GANsum Dataset.

Problems Occurred:

- limited by the computational resources while training the model.
- limited time period to keep the session while on T4 GPU in colab.

Suggestions Made by the Supervisor:

Decisions Taken:
